

Angel Wang

Product Designer

Ann Arbor, MI

itsangelwang@gmail.com

Portfolio: itsangelwang.com · LinkedIn

Product Designer (ex-TomTom) with 2+ years designing AI-assisted experiences across mobility, mobile, and web — turning complex systems into intuitive, trustworthy products and prototyping them as working software with AI coding tools.

EXPERIENCE

AceMode — AI Content Designer

Jul 2026 – Present · Remote

- Create AI-generated image and video content, developing generative workflows for faster creative iteration and content production.

Independent — Product Designer / AI Product Builder

Apr 2025 – Present · Ann Arbor, MI

- Designed and shipped 2 live web products end-to-end with AI coding tools (Claude Code, Cursor, Replit) — an interactive 3D atlas and my portfolio site, from design direction to deployment.

TomTom — UX Design Intern

Apr 2024 – Dec 2024 · Farmington, MI

- Designed Navigation Pilot, an AI-assisted driving concept grounded in 8 driver interviews, surfacing contextual road risks and decision support across mobile and in-vehicle experiences.
- Designed and iterated 60+ mobile and in-vehicle screens across navigation, onboarding, payment, and subscription workflows.
- Conducted comparative usability evaluations across Apple CarPlay, Google Maps, and TomTom, identifying 10+ usability issues and informing design priorities.

General Motors — UX Designer, Graduate Design Project

Jan 2024 – Apr 2024

- Designed a luxury in-vehicle ambiance concept for the Cadillac Lyriq through UX research and high-fidelity Figma prototyping, refined with feedback from GM design professionals.

Square — UX Researcher, Sponsored Project

Jan 2023 – Apr 2023

- Ran task-based usability testing on Square Online's merchant fulfillment workflow, uncovering three critical issues and delivering nine prioritized design recommendations.

Udentity — UX Design Intern

Nov 2020 – Aug 2022 · Shanghai, China

- Designed digital experiences for 9 international education fairs serving 1,500+ attendees per event across 25 countries.
- Led UX design for a WeChat mini-program supporting international school applications, designing 12 screens that doubled application volume and achieved an 80% completion rate.

SELECTED PROJECTS

Proslang — Wearable UX · Cross-device Flow

- Designed a cross-device slang learning concept for quick capture on smartwatch and deeper review on phone.

VOLUNTEER

Acts2 Network — Events & Communications

Apr 2025 – Present

- Designed bilingual digital campaigns and event materials for 30+ community events, reaching 500+ participants.

EDUCATION

University of Michigan, Ann Arbor

M.S. in Information · UX Research & Design / HCI

Sep 2022 – Dec 2024 · GPA 3.95/4.0

Stony Brook University

M.S. in Finance

Sep 2019 – Dec 2020

Languages: English, Mandarin Chinese

SKILLS

Product & UX: Product Design, Interaction Design, UX Research, Usability Testing, Wireframing, Mobile Design, In-Vehicle UX / HMI, Accessibility

AI & Prototyping: AI-Assisted Experiences, Rapid Prototyping, Front-End Prototyping, Generative AI Workflows

Tools: Figma, Adobe CC, Claude Code, Cursor, Replit, HTML/CSS, JavaScript
